NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1999
(UNAUDITED)

NOTE 1: BUSINESS ORGANIZATION AND SIGNIFICANT ACCOUNTING POLOCIES

American Communications Enterprises, Inc. (the "Company") was incorporated under the laws of the state of Nevada on October 29, 1998. The Company is considered to be in the development stage, as defined in Financial Accounting Standards Board Statement No. 7. The Company intends to purchase and operate radio stations throughout the United States. The planned principal operations of the Company have not commenced, therefore accounting policies and procedures have not yet been established.

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared in accordance with generally accepted accounting principals for interim financial information and the instructions to Form 10-QSB and Rule 10-1 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Accordingly, these financial statements do not include all of the footnotes required by generally accepted accounting principals. In the opinion of management, all adjustments (consisting of normal and recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2000 are not necessarily indicative of the results that may be expected for the year ended December 31, 2000. The accompanying financial statements and the notes should be read in conjunction with the Company's audited financial statements as of December 31, 1999 contained in its Form 10KSB.

NOTE 2: RELATED PARTY TRANSACTIONS

Included in accrued expenses is approximately $250,000 in accrued wages and related payroll taxes due to the President and Vice-President of the Company under employment agreements.

During the Quarter the Company's borrowed from its President $25,000, which is non-interest bearing, unsecured, and due on demand.

NOTE 3: GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a working capital deficiency of $270,711, an accumulated deficit of $642,173 as of March 31, 2000, and a net loss for the

quarter then ended of $165,627. Accordingly its ability to continue as a going concern is dependent on obtaining capital and financing for its planned principal operations. The Company plans to secure financing for its acquisition strategy through the sale of its common stock and issuance of debt. However, there is no assurance that they will be successful in their efforts to raise capital or secure other financing. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

NOTE 4: TIME BROKERAGE AGREEMENT

The Company entered into a Time Brokerage Agreement (the Agreement) with Watts Communications Inc. on June 1, 1999. The Agreement is for 12 months unless terminated earlier. The Agreement gives the Company an irrevocable option to purchase substantially all of the assets of Watts Communications Inc. (the Seller), subject to Federal Communications Commission approval, and grants to the Company the radio air time for four radio stations for the period of the Agreement. In exchange for the purchase option and the airtime, the Company will pay the Seller various monthly fees of approximately $10,000 per month.

Under the Agreement, the Company will operate the four radio stations and have the right to receive payment for any commercial or program time sold during the term of the Agreement.

The sale of commercial and program time are included in revenues and the monthly fees payable under the Agreement are included in Cost of Revenues in these financial statements.

NOTE 5: COMMITMENTS

In January 2000, the Company executed a letter of intent to acquire substantially all of the assets of a Texas corporation (the Seller), which include two radio stations in Texas. The letter of intent calls for the acquisition of substantially all of the assets of the Seller, including the two radio stations, for approximately $750,000 made up of cash, notes, Company stock and/or other consideration.

This acquisition is contingent upon Federal Communications Commission approval.

NOTE 6: SUBSEQUENT EVENTS

In April 2000, the Company executed a letter of intent to acquire substantially all of the assets of a Nevada corporation (the Seller), which includes two radio stations. The letter of intent calls for the acquisition of substantially all of the assets of the Seller, including the two radio stations, for approximately $3,000,000 made up of cash, notes, Company stock and/or other consideration.

This acquisition is contingent upon Federal Communications Commission approval.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

OVERVIEW

The following discussion and analysis should be read in conjunction with the balance sheet as of December 31, 1999 and the financial statements as of and for the three months ended March 31, 2000 and 1999 included with this Form 10-QSB.

We are considered to be in the development stage as defined in Financial Accounting Standards Board Statement No. 7, and we intend to provide branded, interactive information and programming as well as merchandise to music enthusiasts worldwide.

Readers are referred to the cautionary statement, which addresses forward-looking statements made by the Company.

RESULTS OF OPERATIONS

For the quarter ended March 31, 2000 we generated revenues of approximately $126,165 through the Time Brokerage Agreement with the Stations. Revenues primarily consisted of commercial or program time sold. We generated no revenues for the quarter ended March 31, 1999, as we hadn't yet commenced operations.

We incurred a net loss of approximately $165,627 for the quarter-ended Ended March 31, 2000 as compared with a net loss of $99,048 for the quarter-ended Ended March 31, 1999. Our operating expenses consist primarily of broadcast operations, sales and marketing and general and administrative expenses. General and administrative expenses increased to $203,738 for the quarter ended March 31, 2000 from $99,048 for the quarter ended March 31, 1999, and principally includes payroll and related taxes; professional fees for consulting, business development, legal and accounting; office supplies expense; travel expense and organizational costs. Broadcast operating expenses of $53,067 for the quarter ended March 31, 2000, and consisted primarily of those expenses incurred in connection with the management of the Stations. Sales and marketing expenses of $35,633 for the quarter ended March 31, 2000, and were incurred in connection with the development of advertising revenues.

The results of operations for the period ended March 31, 2000 are not necessarily indicative of the results for any future interim period or for the year ending December 31, 2000. We expect to expand upon obtaining capital and financing for our planned principle operations.

Liquidity and Capital Resources

Our operating requirements have exceeded our cash flow from operations as we continue to build our business. Operating activities during the quarter ended March 31, 2000 used cash of $86,077. Operating activities were primarily funded through proceeds from the sale of common stock of $25,000 and proceeds from the issuance of debt of $25,000. At March 31, 2000 we had cash and cash equivalents of $4,671.

During April 1999, we began offering subscriptions for the sale of up to 11,000,000 shares of our common stock at $0.05 per share, which was increased to $0.25 in the third quarter of 1999. As of March 31, 2000, cash proceeds of $200,000 were received through the sale of 1,566,667 shares in connection with this offering. An additional 6,064,221 shares of common stock, valued at approximately $373,000, were issued in exchange for services, satisfaction of debt and a license agreement. We need the proceeds of this offering to expand our operations and finance our future working capital requirements. Based upon our current plans and assumptions relating to our business plan, we anticipate that we may need to seek additional financing to fund our proposed acquisition strategy.
